Kubota FB1000

Premium – product improvements

The innovative non-stop baling breakthrough technology reaches the next level of development.

We can all recognize maturity and experience when we see it:

Smooth operation and high reliability during daily work is key expectation for every user. Hand in hand with ease of service and new solutions, it simply aims for “easier customer life”!

Push the limit of baling and wrapping to the next level!

Kubota FB1000 Premium brings enhanced functional reliability across a wide variety of conditions. Smart yet durable solutions are ensuring cost-effective operations at a higher level of productivity. An easier to use solution, offering superior intake capacity and bale formation.

Kubota FB1000 Premium features product news and improvements:

A range of enhancements, including structural upgrades, more precise wrapping, reduced crop pollution... all serve to boost machine stability and performance.

Meanwhile, new solutions such as a new knife cassette system, an upgraded pick-up and a clearer user interface are just some of the new features which make Kubota FB1000 Premium match your needs!
